Dear Friends in Christ

We thank God for His marvelous grace during these past two months. We are also thankful for the prayers of Gods people for me as I have slowly recovered from my fall I had in July.

In our last letter we told you about the fall I had off the back of my pickup. I have had two weeks of home therapy to help me slowly gain my strength to get in and out of bed and walk. The pain was so severe that I had to spend much time in bed for recovery. I have also now had four weeks of therapy at a therapy clinic. This has helped me overcome the pain as well as gain strength in my overall body. I am now able to walk without the walked and have done some yard work.

As a result of all the time it has taken me to recover, I have not been able to get out to witness. I did pass out many gospel tracts at the therapy place and am praying God will speak to hearts of some of their need to be saved. There is not much printing being done at the mission office so I have not been able to help there. Louise is picking up the mail each day and still helping at the mission office. There is much work to be done on a daily basis for all the missionaries with our board. Now that I have gained my strength I am able to help Louise with some house work.

We have recently heard from a marine that was saved under our ministry in 1976. He is married and has two children and pastors a church in Pennsylvania. What a blessing this was to us. You have a part in the souls that are saved under his ministry because of your prayers and support.

Please continue to pray for me as I continue to recover from the fall. With Gods help I want to continue to witness and win souls to Christ As we see all the tragedies around the world occurring, we believe Jesus is coming soon. May we be busy sharing the Gospel with all that we can before His return. Thank you once again for praying and your continued financial support. God bless each of you in a special way.

Yours in Christ,
